Specific Audit Approach

Grau & Associates
CERTIFIED PUBLIC ACCOUNTANTS

AUDIT APPROACH

Grau's Understanding of Work Product / Scope of Services:

We recognize the District is an important entity and we are confident our firm is eminently qualified to meet the challenges of this engagement and deliver quality audit services. ***You would be a valued client of our firm and we pledge to commit all firm resources to provide the level and quality of services (as described below) which not only meet the requirements set forth in the RFP but will exceed those expectations.*** Grau & Associates fully understands the scope of professional services and work products requested. Our audit will follow the Auditing Standards of the AICPA, *Generally Accepted Government Auditing Standards*, issued by the Comptroller General of the United States, and the Rules of the Auditor General of the State of Florida and any other applicable Federal, State or Local regulations. **We will deliver our reports in accordance with your requirements.**

Proposed segmentation of the engagement

Our approach to the audit engagement is a risk-based approach which integrates the best of traditional auditing techniques and a total systems concept to enable the team to conduct a more efficient and effective audit. The audit will be conducted in three phases, which are as follows:

Phase I - Preliminary Planning

A thorough understanding of your organization, service objectives and operating environment is essential for the development of an audit plan and for an efficient, cost-effective audit. During this phase, we will meet with appropriate personnel to obtain and document our understanding of your operations and service objectives and, at the same time, give you the opportunity to express your expectations with respect to the services that we will provide. Our work effort will be coordinated so that there will be minimal disruption to your staff.

During this phase we will perform the following activities:

- » Review the regulatory, statutory and compliance requirements. This will include a review of applicable federal and state statutes, resolutions, bond documents, contracts, and other agreements;
- » Read minutes of meetings;
- » Review major sources of information such as budgets, organization charts, procedures, manuals, financial systems, and management information systems;
- » Obtain an understanding of fraud detection and prevention systems;
- » Obtain and document an understanding of internal control, including knowledge about the design of relevant policies, procedures, and records, and whether they have been placed in operation;
- » Assess risk and determine what controls we are to rely upon and what tests we are going to perform and perform test of controls;
- » Develop audit programs to incorporate the consideration of financial statement assertions, specific audit objectives, and appropriate audit procedures to achieve the specified objectives;
- » Discuss and resolve any accounting, auditing and reporting matters which have been identified.

Phase II – Execution of Audit Plan

The audit team will complete a major portion of transaction testing and audit requirements during this phase. The procedures performed during this period will enable us to identify any matter that may impact the completion of our work or require the attention of management. Tasks to be performed in Phase II include, but are not limited to the following:

- » Apply analytical procedures to further assist in the determination of the nature, timing, and extent of auditing procedures used to obtain evidential matter for specific account balances or classes of transactions;
- » Perform tests of account balances and transactions through sampling, vouching, confirmation and other analytical procedures; and
- » Perform tests of compliance.

Phase III - Completion and Delivery

In this phase of the audit, we will complete the tasks related to year-end balances and financial reporting. All reports will be reviewed with management before issuance, and the partners will be available to meet and discuss our report and address any questions. Tasks to be performed in Phase III include, but are not limited to the following:

- » Perform final analytical procedures;
- » Review information and make inquiries for subsequent events; and
- » Meeting with Management to discuss preparation of draft financial statements and any potential findings or recommendations.

You should expect more from your accounting firm than a signature in your annual financial report. Our concept of truly responsive professional service emphasizes taking an active interest in the issues of concern to our clients and serving as an effective resource in dealing with those issues. In following this approach, we not only audit financial information with hindsight but also consider the foresight you apply in managing operations.

Application of this approach in developing our management letter is particularly important given the increasing financial pressures and public scrutiny facing today's public officials. We will prepare the management letter at the completion of our final procedures.

In preparing this management letter, we will initially review any draft comments or recommendations with management. In addition, we will take necessary steps to ensure that matters are communicated to those charged with governance.

In addition to communicating any recommendations, we will also communicate the following, if any:

- » Significant audit adjustments;
- » Significant deficiencies or material weaknesses;
- » Disagreements with management; and
- » Difficulties encountered in performing the audit.

Our findings will contain a statement of condition describing the situation and the area that needs strengthening, what should be corrected and why. Our suggestions will withstand the basic tests of corrective action:

To assure full agreement with facts and circumstances, we will fully discuss each item with Management prior to the final exit conference. This policy means there will be no "surprises" in the management letter and fosters a professional, cooperative atmosphere.

Communications

We emphasize a continuous, year-round dialogue between the District and our management team. We regularly communicate through personal telephone calls and electronic mail throughout the audit and on a regular basis.

Our clients have the ability to transmit information to us on our secure client portal with the ability to assign different staff with separate log on and viewing capability. This further facilitates efficiency as all assigned users receive electronic mail notification as soon as new information has been posted into the portal.

Cost of Services

Grau & Associates
CERTIFIED PUBLIC ACCOUNTANTS

On MOTION by Mr. Leet, seconded by Ms. Phillips, with Ms. Coronel opposed, and all others in favor, the Board of Supervisors for the Harmony Community Development District approved the Landowner Notification from Florida Gas Transmission Company, LLC.

Discussion Regarding Holiday Lights Arrangement with the HOA

Ms. Mullins noted the HOA arranges the holiday lights every year. It was noted the lights were already up.

Discussion Regarding Trash from the Halloween Event

1. Christmas Event

Ms. Mullins noted there was excess trash left behind during the Halloween event. Berman is able to shift their working times back in order to pick up trash after the Christmas event if needed.

There was discussion regarding the trash pickup. It was noted there was trash everywhere, not just in the trash cans.

Ms. Coronel noted the previous field services company picked up the trash the next day.

It was noted Berman should be notified when these events take place in order to be aware that there will be an increase in trash the next day. The HOA needs to be sure they are picking up as much as possible after the event.

Ms. Sharenow recommended moving Berman shifts for the Christmas event in order to make decisions for future events. She also recommended putting out extra garbage cans during events.

It was requested that the HOA put additional trash cans out for the events.

Grinding and Replacement
Project**

Ms. Mullins noted the completed study can be submitted to vendors to receive equal scope of work proposals. She reviewed the RFP process. She noted the sidewalk complaints and issues are extremely high and need to be addressed.

It was noted there are some funds available this year and once proposals are received, a solid budget can be created for next year.

There was discussion regarding the scope of work and the study. Mr. Hamstra noted the previous study was only done for inventory, not issues.

It was recommended to move forward with the most crucial areas and the RFP process, without completing the study.

There was lengthy discussion regarding the RFP process and the scope of work. Mr. Hamstra noted the bids can be set up in categories.

The District Engineer will follow up with an estimate of the cost of the study and analysis. There was brief discussion on his scope of work.

There was continued discussion regarding the RFP process and the scope of work for the District Engineer.

There was also discussion regarding the crucial areas.

Mr. Leet reviewed the options available to the Board:

- Have the District Engineer completely update the map prior to the RFP process
- Have the District Engineer update only the crucial areas within the map and add the lakes, then move forward with the RFP process for those areas only

There was brief discussion regarding the timing of the RFP process and the costs.

Ms. Mullins noted the estimated amounts can be placed within the budget each year until all sidewalks are complete and only need maintenance.

There was brief discussion regarding completing only the crucial areas or completing the entire sidewalks.

On MOTION by Mr. Leet, seconded by Mr. Chokanis, with all in favor, the Board of Supervisors for the Harmony Community Development District approved the Authorization to Proceed with Sidewalk Analysis by Field Services, the Evaluation Criteria, and for District Management to Proceed with Sidewalk RFP in January.

This item was tabled.

Discussion Regarding No-Trespassing Sign Placement for Lake

Ms. Mullins noted that there have been two incidents of motorized boats being put into Buck Lake. Police were unable to do anything as there is no signage related to "No Trespassing" posted.

There was brief discussion regarding the boats and the boat ramp on the opposite side. It was noted that if the District does not own the lake, the District cannot trespass. This would be a Harmony West issue. No Trespassing would only be valid on CDD property.

There was discussion regarding the types of boats that entered the lake and the rules related to them.

District Management will research the cost of signage.

Berman Field Inspection Report

Berman gave an update on the current projects, including pressure washing, irrigation faucets that were leaking, fence panel repair, and the east entrance tower. All the boats and the dock have been cleaned

and repaired. Parks and the dog park have been cleaned up as well. It was noted there have been 89 concrete locations grinded.

Berman gave an overview of the pool issues. It was noted there currently is an electrical issue. Mr. Chokanis requested a weekly update.

Ms. Sharenow requested any historical information related to the pool to be sent to Berman, in order to have a better understanding of the pool issues.

There was brief discussion regarding the historical background of the pool repairs.

Ms. Phillips recommended purchasing a printer for Berman. There was brief discussion regarding the printer. Ms. Mullins will follow up.

Ms. Phillips noted there is a phone number listed on the reservation website for emergencies, but it is incorrect. The website is unable to be updated. It was recommended to print out small signs to place on the boats with the correct information. Ms. Mullins will follow up.

Ms. Coronel commented regarding the process of boat reservations. Berman gave an overview of the process and noted the reservation alarms are now being sent to all Berman staff that are working.

There was brief discussion regarding the need for more Berman staff to complete all projects needed. Ms. Sharenow noted having a dedicated person, with a bigger machine, to complete all pressure washing would be helpful.

Ms. Mullins will request an update on mulching.

There was brief discussion regarding the total pressure washing project and cost. Ms. Sharenow noted that proposal would complete everything.

FIFTH ORDER OF BUSINESS

Other Business

Staff Reports

District Counsel –

Mr. Eckert gave an overview of the updated open carry law for firearms and the locations where it is prohibited. He will keep the Board updated on any changes.

District Engineer –

Mr. Hamstra gave an update regarding the maintenance facility. Permit applications will be submitted by the middle of December to start the process.

Mr. Hamstra noted the process of getting the RV storage lot and Garden Road back up and running is under way.

The Dragonfly Ponds work has been tabled until the next meeting to confirm the scope of work. Mr. Hamstra does not want them to scalp the entire shoreline.

Mr. Hamstra gave an update on the nuisance species. Although it has been sprayed and maintained in the past, it seems to have taken over again. The wetland specialist completed her annual inspection for the report to South Florida and is concerned that the nuisance species is more than 5% of the area. It is recommended to gather proposals to treat this area again.

Mr. Hamstra noted the updated sidewalk inspection map, and all analysis will cost approximately \$50,000.00 - \$60,000.00.

There was brief discussion regarding the RV storage lot. Mr. Leet gave an update and noted discussion with the County is still in progress.

There was brief discussion regarding the location for the crucial sidewalk repair.

Mr. Hamstra noted historical pool issues and topics would be recorded in previous meeting minutes.

There was brief discussion regarding the budget for sidewalk repair and completing the repairs in phases. Mr. Hamstra noted the needed repairs could be categorized as moderate and most severe. There was continued discussion regarding the timing of the RFP process. It was noted Schoolhouse Road and Five Oaks Road from the roundabout at Cat Briar to Schoolhouse Road are the most crucial.

Ms. Mullins noted the RFP process would most likely take place in January. The sidewalks are a priority due to safety hazards and are only getting worse.

There was brief discussion regarding the cost effectiveness of completing the sidewalks piece by piece or completing the entire project. Ms. Phillips commented regarding Primrose Willow getting repaired.

There was also discussion regarding the reserve study. Ms. Phillips recommended having the Board gather ideas for the study and bring them back to the next meeting. Ms. Mullins noted she can gather proposals if the Board chooses.

There was brief discussion regarding having a Board liaison work with Field Services and the vendors versus having the District Engineer's analysis. Mr. Hamstra noted the current map could be used with larger blown-up versions. There was continued discussion regarding the RFP process and the scope of work for Field Services. The entire analysis will be completed at this time in order to break down the repair in phases and budget accordingly. The crucial sidewalks will still be completed first, with an RFP process beginning in January.

Ms. Phillips noted the Board can review the previous proposal from Precision Sidewalk Safety to note the breakdown of repairs needed.

Ms. Coronel will be the liaison to work with Field Services on the sidewalk repair analysis.

Ms. Mullins noted the Board needs to review the evaluation criteria. Mr. Hamstra will work on the bid documents.

District Manager –

Ms. Mullins stated the next meeting is scheduled for December 18, 2025. Ms. Mullins will need to confirm quorum as an auditor must be selected at that meeting.

Supervisor Requests and Audience Comments

Ms. Phillips handed out the previous reserve study for review. She also noted various topics that need to be addressed within the District for future meetings. The District currently mows the median on 192 in front of Harmony, and this should be turned back over to the County. The landscaping would need to be removed in order to do so. Ms. Phillips also commented regarding the TOHO contracts and communication with the residents. She recommended having a quarterly newsletter. Ms. Coronel noted that the HOA uses the boards in the community. A resident recommended working with the HOA Manager to send out email blasts.

Mr. Leet commented regarding the pavilion that was just cleaned up. He requested getting a proposal to have a trash can placed in that location by Field Services. Mr. Leet also commented on the construction on the side of the road. It was noted there will be cleanup needed in the future.
